

Forecast: Political Bull on the Horizon

Fact: Democrats run the show in the Texas House because they are enabled, allowed, and blessed by unprincipled Republicans in leadership. A batch of middle-roader GOP State Reps go along with it because they never have to take a tough vote on the big issues the people of TX really care about – like ending taxpayer-funded giveaways and employment for illegals, requiring proof of citizenship to register to vote/vote in all elections, preparing TX to defend us from border invaders when Trump is no longer in office (a re-opened border is in our future – don't kid yourselves), stopping Leftist policies everywhere they exist in state government, and eliminating property taxes for all – not just seniors!

House conservatives had their fight on today, but we need them to keep it on! With 33 days left in the session, the runway is short. Forget your bills. Leadership's not letting your bills through – so STOP bad Uni-Party bills!

Seismic-shift changes happen when Texans get fed up with the political lies raining down on them from political elites who court them at election time and then govern like Team Donkey.

As an unapologetic truth-teller, State Rep. Brian Harrison is willing to be hated by his colleagues because he cares about a free Texas more. His reporting from the inside encourages grassroots truth-tellers. The unvarnished hatred his reporting evokes from fellow GOP Reps. and the Austin media tells you all you need to know. We've always said that Texas would be saved by the liberty-loving grassroots – not by politicians and the grifter class. Now you see why. (Don't like Harrison? Tough. Where's your plan?)

Today, so many MAGA "fact-checkers" have eyeballs on the Austin Capitol and write about it that people are waking up to the Betrayal. We say, "God bless you and keep going!"

Texas needs you now more than ever. Truth is – Republican politicians raining lies down on you have their post-session propaganda machines working overtime to craft a message about what they've done for you and how this will be the "most conservative legislative session ever." Ruling class powers will even try to slap a Trump-approved sticker on it. Don't wholesale believe it. Seek truth for yourself and tell everybody else what you find.

This hasn't been a conservative session. **It's a loophole session** – filled with big spending, gov't growing gimmicks, and smoke and mirrors to make you believe it was good for Texas. The TX Senate has its own charade – something we'll address soon and bring receipts.

Until then, truth tellers, grab your slickers and umbrellas. Weather the barnyard fertilizer showers for Texas. *She needs you now more than ever!*

"He who speaks truth tells what is right, but a false witness utters deceit." Proverbs 12:17

"Lying lips are extremely disgusting to the Lord, but those who deal faithfully are His delight." Proverbs 12:22

Most sincerely,

A handwritten signature in black ink, reading "JoAnn Fleming". The signature is fluid and cursive, with the first name "JoAnn" and last name "Fleming" clearly distinguishable.
